Latest Asus IoT edge AI systems powered by NVIDIA® Jetson available through Macnica ATD Europe

Chatou/France, 04 November 2024. Macnica ATD Europe, a valued Asus IoT distribution partner, is pleased to announce the availability of the all-new Asus IoT PE2100N-series edge AI systems, powered by NVIDIA® Jetson AGX Orin, and PE1101N series, powered by the NVIDIA Jetson Orin NX or NVIDIA Jetson Orin Nano modules.

The new series, featuring the NVIDIA Jetson Orin lineup that offers up to 275 TOPS of AI performance, provide AI developers with streamlined and effortlessly configurable systems to fulfill diverse industrial and non-industrial applications, including machine vision, automated guided vehicles (AGV), autonomous mobile robots (AMR), and intelligent video-analytics applications. In addition, data processing at the edge is outperforming traditional cloud methods and can now be realized with faster speed, stronger security, and significant cost savings.

Macnica ATD Europe offers comprehensive technical support for this latest Asus IoT PE2100N-series, and PE1101N series. Furthermore, the sales experts at Macnica ATD Europe are flexible to answer to requests of every size from interested customers for the latest members in the Asus Edge AI and AIoT portfolio.

Enhanced product descriptions together with the Macnica ATD Europe service and details about multiple areas of application can be found here: *www.macnica.com/eu/atd-europe/en/solutions/asus-iot/*.
